

ACCESSORIES MCA527 L

Charger

MCA527 Charger (regulated 12V, 2Amax.)

The charger has a high electromagnetic compatibility and a lockable jack plug. Input voltage: 100-240V AC.

Cable

MCA-PC-USB527

Specified USB2.0 cable (USB-B to USB-A)

Length: 1.5m

MCA-PC Ethernet

Connects the MCA527 to a network.

Length: 1.5m

MCA-Detector_BNC+SUB_D+LEMO

Connects Scionix NaI detector with the MCA527L LEMO (SIZE FFA 2S) to 1xSUB_D9, 1xBNC, 1x SHV

HV Power Supplies

High voltage power supply 1200V, 0.25W, positive

Detector high voltage supply positive +10V to +1200V

High voltage power supply 1200V, 0.25W, negative

Detector high voltage supply positive -10V to -1200V

High voltage power supply 3600V, 0.25W, negative

Detector high voltage supply positive -50V to -3600V

High voltage power supply 3600V, 0.25W, positive

Detector high voltage supply positive +50V to +3600V

1

Photomultiplier Base Module

Base-A

The module was developed to connect a scintillation detector with an existing MCA.

Other Accessories MCA527 L

Battery

1 Li-ion, 2600mAh

Transport case

Provides space for the MCA, a small detector and a Netbook
